Dear Marcia,

Enclosed are a few pages from a report on donations to the Soviet Union during the Second World War. This was a campaign organized by the Ukrainian Canadian Association which was a forerunner to the Association of United Ukrainian Canadians. It is interesting to notice that many donors in Nova Scotia were not Ukrainians. I suspect that among these names are individuals who were interned during the First World War and remained the core group of the Labour Temple.

For your information,

Myron Momryk
